Dear Mr Low,

Thank you for your last bulletin and announcement for the Comet and Nova section.

I am afraid I am unable to give you any names or observations from our Kingston Centre, since we have decided that we will be unable to do any observing till this fall. As you will understand that the Centre is composed of students, and we are now having exams, we will not be having any more meetings till the fall. I hope then to be able to interest a number of the members in the program.

Yours sincerely

*Tony Fink*
