

411 Brixton Avenue

St. Lambert, P.Q.

April 5, 1962

Dear Mr. Ramsay,

The Comet and Nova Section is off to a good start. Of the ten Centres I have heard from, about half show a definite interest in taking part in this programme, and I have received reports from Montreal and Hamilton. I intend to have a display representing this section at Edmonton this May, although I will be unable to attend the meeting. There is enough material for three or four boards, although I can cut this down to one board if space is limited.

To date, I have sent out two bulletins (Nov.15, 1961; Mar. 1, 1962) and three announcements (Dec. 7, 1961; Mar. 9, 1962; Mar,23, 1962). I have received no reports of observations on Comet Seki-Lines as yet, nor have I seen it my self. However, it will be more favourable in about a week.

Enclosed is a copy of my latest mailing list. In cases where I have received no replies, I have selected one person from the list you sent out last September. All Centres, whether I have heard from them or not, receive copies of all Bulletins, Announcements, and forms.

I will keep you posted on all activities in the C & N Section. Best regards, and good observing.

Yours sincerely,

Jim Low
