

Mr. John Gillson,
228 Rowby Street,
Post Office Out;

Mr. James Low,
National Co-Ordinator,
411 Bristow Avenue,
St. Lambert P. Q.

Dear Sir:

The Lakehead Astronomical Society
have elected me chairman of their Comet
and Nova Research programme.

We have three members who are
interested in this programme, and we
would appreciate it if you could
designate sky areas for these members,
so they could actively take part in
this programme.

Each of the members has a telescope and a set of spy charts to aid them in the observing of the spy and designated to them.

Please send this information, and any other information you think would help us in this programme to me at the above address.

Yours Truly,
John Nelson,
228 Rowley Street,
Port Arthur, Ont.
