October 22, 1962

Dear Mrs Yane,

Thank you for your letter of Oct 2, and for the large number of C&N Search reports. The Montreal Centre is still, by far, the most active in this work.

From Jan. to Sept. of this year, 21 observers made 1289 searches of 56 areas. Three Centres--- Mtl, Niagara Falls, and Hamilton--- are making searches at present.

The weather was poor for the past two weeks, so I've had little ~~at~~ time to observe.

Best regards to you and the Centre --- and I hope you are having good observing weather.

Yours truly,
