St. Lambert, P.Q.
December 19, 1962

Dear Mr. Maclean,

Thank you for your
November Reports, and your
letter of Dec. 4. I am
pleased that you took another
area of low declination. Few
Canadian Observers take areas
south of the Celestial equator,
and at your latitude, there is
a chance to cover much of the
southern sky.

Best regards and Seasons
greetings to you and Niagara
Falls Centre.

Good observing,

Jim Low
