Dear Jim,

I hope the forms are filled out correctly.
I would like to ask you about the
Montreal centre's Nova Herculis 1963 observations.
I wonder if you could forward all the
estimates you have to me. We would
like to form as complete a light curve as
possible for presentation as part of the
variable star section ~~of~~ at the ~~General~~ Assembly.

Thanks.

Hope to see you at the ~~the~~ G.A. here
in Toronto.
