Dear David,

Enclosed are copies of the forms used in the Comet and Nova Section. These should be self-explanatory, but if you have any questions, please let me know. Are you interested in making systematic searches for Comets and Nova e?

Perhaps you could introduce this programme to interested members. I know of one Toronto member (Charles D. Cameron) who indicated an interest when I met him last month.

If you require more forms, just let me know.

Best regards and good observing,

Jim Low
