

411 Brixton Avenue,
St. Lambert, P.Q.
June 8, 1963

Dear Mr. McCulloch,

When we met at the General Assembly of the R.A.S.C. in Toronto, you indicated that you would be interested in taking part in the Comet and Nova Section. Enclosed are copies of the forms used with this section, and they should be self-explanatory. However, if you have any questions, please let me know. If you wish to make a systematic search of selected areas of the sky, please let me know what region you would be interested, and I could let you know what areas are not under observation at present.

I have run out of copies of the "Area" chart, but when I have more printed, I will send you a copy.

Best regards and good observing,

Jim Low
