Dear Mr. Sharpe,

Thank you for your letter of August 8. Enclosed are the forms used in the Comet and Nova Section. These should be self-explanatory but if there is anything you do not understand, please let me know. I am out of "Area Charts" at the moment, but if you let me know what part of the sky you would like to search, I could send you a list of "areas" not under observation. May I suggest one area you could start with? Area #6 (R.A. 21:00 to 22:00, Dec.  $60^{\circ}$  to  $70^{\circ}$ N.) is not under observation at this time.

By the way, are you a member of the Toronto Centre? If so, perhaps you know David Ford. He is my C & N Section contact with that Centre. His address is: 27 Woodlaun E., Toronto 7.

Best regards, and good observing,

*Jim Low*
