Dear Sir:

Enclosed are negative search reports for
March 1964.

Here also are four observations of *Nesia
heraldia* 1963:

March 6 - 10^m. 5
" 18 - 10^m. 6
" 22 - 10^m. 7
" 23 - 10^m. 6

Thanks for Bulletin no. 5 and the revised C+N
Forms. Your postcard came the day after.

I am hoping to make it to Ottawa next month for
the General Assembly. My wife has relatives in Cumberland and
Gatineau Point, so that will solve the problem of accommodations.

Best regards,

Hugh H. A. Maclean,
Niagara Falls Centre.
