Dorval, P.Q.

May 28, 1964

Dr. K. O Wright, President
Royal Astronomical Society of Canada
Dominion Astrophysical Observatory
Victoria, British Columbia

Dear Dr. Wright,

When we met at the General Assembly in Ottawa, you asked me to send you copies of the report forms and past "Bulletins" of the Comet and Nova Section. Enclosed are copies of all the instruction and report forms and copies of past "Bulletins" and "Announcements" of which I still have extra copies.

C & N Form #1 outlines the programme in general, #2 is the negative search report form, #3 explains what the observer should do if he discovers a comet or nova, and #4 suggests how to report observations.

The 1963 annual report of the Comet and Nova Section has just been mailed to Vern Ramsay, National Chairman of the Standing Committee for Observational Activities.

Best regards, and good observing,

Jim Low, National Coordinator
Comet and Nova Section
Standing Committee for Observational
Activities
