

88 Lorne Ave.  
St. Catharines, Ont.  
Wednesday August 19, 1964

Dear Sir,-

Here are negative search reports for July 1964.  
No one in Niagara Falls Centre has reported the  
finding of ~~Nova~~ Comet Ikeya, and further  
sightings of Comet Tomita-Gerber-Honda.

Nova Hercules 1963 continues its very slow  
drop in magnitude. Here are my estimates:

July 13 - 11<sup>m</sup>. 6  
July 18 - 11<sup>m</sup>. 7  
July 31 - 11<sup>m</sup>. 9

Best regards

Hugh Maclean  
Niagara Falls Centre.
