Hamilton Ontario
November 8th 1964

Dear Mr. Low,

Stew Buntain has asked me to take over for him in our Hamilton centre Comet & Nova search programme.

Stew mentioned to me on Thursday evening at our monthly meeting that, at present I am the only member in our Comet & Nova search programme active.

I am beginning my fourth year as a member of the Hamilton centre R.A.S.C., so I am comparatively a new member.

In correspondence handed to me you refered to A.A.V.S.O.

I would be pleased if you would interpret this for me.

At the present time I have sufficient forms.

I might add that I have enjoyed the past four years both as a member and as an observer, and will look forward to hearing from you.

Yours Very Truly
Norman Sybester
