

Mr. Jim Low,  
108 Roy Ave,  
Dorval P.Q.

Quebec 13 March 1965

My Dear Friend Jim, First I want to congratulate you very sincerely for your very nice try in writing to me in french which is very good and that you're a Gentleman of comets for Toronto and here are the details for each one which you will have the kindness (I'm sure) to write with your typewriter on each diagram.

I'm sending you three diagrams  
Gerber-Honda (1964c) (five days after my 1st observation) the 18th of June 1964 at 0215 E.S.T. I made my last observation the 1st of July 1964 at 2045 E.S.T. and it was about 2° N-W of IOTA CANCER.

IKEYA (1964f) the 20th of July 1964 at 0144 E.S.T. (my 1st observation) My last observation was on August 5th 1964 at 0215 E.S.T. and it was about 4° SW of Betelgeuse in ORION.

EVERHART (1964h) My 1st observation on August 24th 1964 at 1929 E.S.T. My last observation on October 11th 1964 at 2001 E.S.T. and it was about 1° North of Epsilon Hercules.

Just if you want, you can type in RED inside each circle the main title if you like.

Well, hoping you'll be satisfied with this, I hope to see you in May in Toronto. You can sign my diagrams as "JOS. MATTE" Quebec City Thanks

Best of luck in your french.

Sincerely

Jos. Matte
