Dear Mr. Matte,

Thank-you for your observations of Comet Kilston, and for the repayment of the loan --- I forgot about the loan!

OH your observation of August 13, you reported the declination at $19^{\circ}66m$. Is this an error, or should this read $20^{\circ}06m$?

Could you please send me copies of your observations, or if you made so many that this would take too much time, could you make copies of selected observations?

Best regards, and good observing,

Jim Low
