February 10, 1967

Dear Mrs. Fidler,

Enclosed is the suggested copy of my "Bulletin No. 9" for the Comet and Nova Section. The mailing list is the same as the one I sent with my last "Bulletin." I have just received the information on new Comet Seki. If, by any chance you receive an ephemeris (on IAU Circulars), would you please include it on this Bulletin.

I am running short of C&N Form #2, which is the report form. I hope you kept the stencil for this! There is no hurry for this, so whenever you have the time, would you please make about 200 copies, and send them to me. That is about a six month supply. Enclosed is a copy of the form.

Best regards, and I hope to see you on March 17. I believe that is the date of the Annual Meeting.

Jim low
(can't even spell my own name)

Jim Low

cc. Miss I.K. Williamson
