

THE UNIVERSITY OF MANITOBA

DEPARTMENT OF MATHEMATICS AND ASTRONOMY

WINNIPEG, CANADA

Dear Madam or Sir;

At present I am in charge of the Nova and comet section here in Winnipeg for the RASC. I think that I now have a few interested people who are ready to start their searches. Do you have any sheets for recording observations; maps of the sky divided into the sections, plus maybe a few instruction sheets? If you do, could you please send some to me so that I may distribute them out to the interested people here in Winnipeg. Could you also send to me the name of the National Co-ordinator. Thank you kindly.

Sincerely yours

BW Dentry

Jim - Will you answer this? Thanks!
Mavis F
