

THE UNIVERSITY OF CHICAGO.

KENWOOD OBSERVATORY

CHICAGO, March 19 1896

Mr. G. P. Lumsden

Cor. Secretary Astronomical and Physical Society
Toronto.

Dear Sir,

I have received and read with great interest the volume of Transactions for 1895. I congratulate the Society on this substantial evidence of its activity and progress.

The Society has been placed on the mailing list of the Yerkes Observatory, and will consequently receive all of its Bulletins and Annals. I take pleasure in sending you to-day the first Bulletin of the Observatory.

Yours very truly

George E. Hale
