

## RASC Weekly: Where have we been?

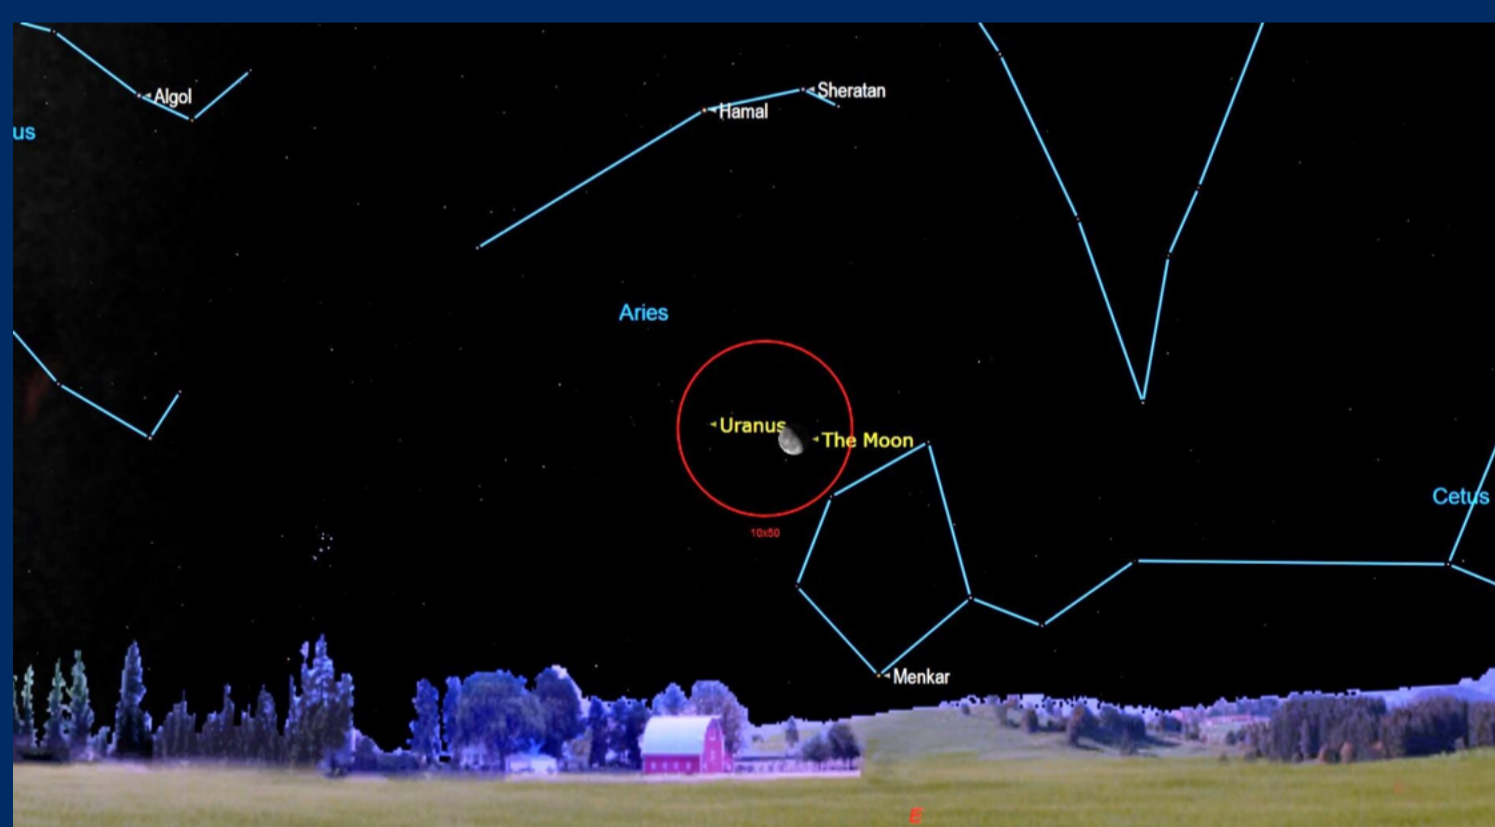

### New Email System with Driven!

As some of you may know, we have been transforming our membership services through Driven for the past few months! This new service is already being implemented through our membership services! What does that mean for our communications?

In summary, we will be shifting our communications and campaigns to driven as they will have a more clear structure and the membership will be more automated so that members and subscribers will receive a more put together set of emails. Communications will resume starting September 6th! Expect to run into more images, graphics, and astronomy!

If you have any suggestions of what you would like to see in our weekly emails moving forward, do not hesitate to contact us through [communications@rasc.ca](mailto:communications@rasc.ca)!

## This Week's Sky with *SkyNews*

August 23 to 29, 2021: Check out some bright summer constellations this week as the gibbous Moon wanes.
