

Dear Miss Northcott,

I have nothing of importance to report  
this month.

have a rotten cold for 3 weeks, from  
being up at Crystal Lake,

Some Gentlemen from Barrie came on evening  
at 10.30. said they were Amateur Astronomers, I was  
at work, until 2.30 AM so missed them.

Three new places put up around here with  
glaring flood lights after dark, needlessly lighting  
up the sky instead of the immediate area around  
their property.

Yours Truly  
B. Topham
