

December 3, 1959

Mr. J. E. Kennedy
The Royal Astronomical Society of Canada
Toronto, Canada

Dear Mr. Kennedy:

As the enclosures will indicate, the Moonwatch Project is particularly interested in establishing a few observing stations in the Dominion, and I have followed your suggestion and written to the Society members outlining the proposal.

Your effort on behalf of the Program is greatly appreciated and I hope your interest will continue. If you will call upon me, I shall be glad to furnish whatever additional information and assistance may be required.

Gus Bakos joins me in sending you our best regards.

Cordially yours,

Leon Campbell, Jr.
In Charge Moonwatch Project
